Giordano, T.P., Guzman, D., Clark, R., et al. Measuring adherence to antiretroviral therapy in a diverse population using a visual analogue scale. *HIV Clin Trials*. 2004; 5(2): 74-79.

Adapted from the Medication Adherence Self-Report Inventory.

Adherence Survey

Now think about the last 30 days. Please point on the line showing the number that is your best guess about how much medicine you have taken in the past 30 days.

0% means you have taken no medicine, 50% means you have taken half of your medicine, and 100% means you have taken every single dose of medicine.

Percentage of Medicine Taken in the Last 30 Days
